Econometric Analysis of Factors Determining Market Outlets Choice of Cultured Fish Farming Entrepreneurship among Nigerian Youths from the Blue Economy

Published On: December 02, 2025 | Pages: 052 - 060

Author(s): Rachel A Ololade*, Funke I Olagunju and Taiwo J Adejumo

Catfish farming is important because of its high-quality protein source, and it bridges the gap between domestic fish demand and supply. This study was aimed at evaluating the factors determining market outlets' choice of cultured fish among youths and middle-aged fish farmer entrepreneurs in Nigeria. This is to enhance the profitability and sustainability of cultured ...
