Fish Biodiversity at Haor Wetland of Bangladesh: A Comprehensive Review

Published On: February 07, 2025 | Pages: 001 - 009

Author(s): Sabikun Nahar, Md. Hashibur Rahman*, Md. Saiful Islam, Mohammad Ashraful Alam, Saymuna Tarin Lupa, Mst. Niloy Jaman, Md. Lipon Mia, Al-Amin and Nazia Naheen Nisheeth

Wetland environments in Bangladesh, such as rivers, lakes, ponds, beel, baor, and haor, are critical for the feeding, spawning, breeding, and nursing of at least 253 fish species, as well as a variety of freshwater fish and prawns. In addition, they support a number of rural people and provide habitat for a multitude of migrating birds. Bangladesh's wetlands are class ...
