Ecological Impacts of Cage Fish Farming in Lake Victoria, Kenya

Published On: April 07, 2026 | Pages: 001 - 009

Author(s): Mercy Chepkirui*, Paul Sagwe Orina, Jonathan Munguti, George Morara, Tonny Sagwe Orina and Jared Ochingo

The decline in capture fisheries globally as a result of growing population and increasing awareness on nutritional benefits of white meat has led to the development of aquaculture. This is anticipated to meet the increasing call for more food for the human population, which is likely to increase further by 2050. Statistics show that more than 50% of the global fish d ...
