Effects of Aberrant Weather Conditions on Fish Farming Production in Earthen Ponds in Bo District, Southern Sierra Leone

Published On: April 11, 2026 | Pages: 010 - 016

Author(s): Francis Amara Makieu, Moses Fayiah* and Isaac Menwoe Gono II

Fish farming in earthen ponds plays a vital role in ensuring food security and income generation for communities in Bo District, Southern Sierra Leone. The study assesses the effects of aberrant weather conditions on fish farmers in selected parts of Bo District, Sierra Leone. The study employed the descriptive research design. Both primary and secondary sources of da ...
